## **Threats to Israel: Terrorist Funding and Trade Boycotts**

**Chairman Poe on the hearing:** *“As one of our staunchest allies, threats to Israel are also threats to the United States. From a Palestinian Authority program that pays salaries to convicted terrorists based on how many Israelis they kill to European countries boycotting Israeli businesses, Israel faces attacks from every angle. This hearing will examine these risks as well as what is being done to seek redress for Americans harmed by Palestinian terrorist attacks in Israel.”*
